PROFESSIONAL EXPERIENCE

Core e-business Solutions, Fairfield NJ — *Software Engineer*

June 2018 - PRESENT

Began work as an agile development intern, and quickly filled into a permanent role as an engineer on the team.

Skills learned here:

- Implemented companywide repository for code base and the git workflow
- Developed warehouse picking algorithms using Java and SQL
- Successfully connected front-end UI to back-end infrastructure using Liferay

R&D Altanova, South Plainfield NJ — *IT*

June 2017 – August 2017 & June 2018 – August 2018

Worked as an intern in the IT department mostly helping other employees with technological issues. Would later go on to develop software for front end employees and engineers, such as a shared employee calendar and calculator applications for the circuit board manufacturing process.

Skills learned here:

- Working within the Linux command line
- Upgraded and maintained company's data backup system.
- Maintain and organize virtual and physical servers
- Create software and computer programs for front end workers and engineers
